

PROFESSIONAL SUMMARY

Software Developer with 2+ years of experience in **.NET Core 8, Angular 18+, MSSQL, DevOps, and Cloud (Azure)**. Specialized in migrating legacy ASPX forms to modern .NET Framework, optimizing database performance, and implementing Agile processes with Jira. Designed CI/CD pipelines that reduced deployment time by **50%**.

SKILLS

Languages: C#, JavaScript, TypeScript, C++, HTML/CSS
Frameworks & Testing: .NET Core 8, .NET Framework, ASP.NET, Angular 18+, Cypress
Databases & Tools: MSSQL, Git/SVN, Visual Studio, VS Code
DevOps & Cloud: Jenkins, Docker, Prometheus, Grafana, Loki, Alloy, Azure (AZ-204, AZ-900), Batch Scripting, IIS
Methodologies: Agile, Scrum, Jira, SDLC, Data Structures & Algorithms

WORK EXPERIENCE

Full Stack Engineer Adrenalin eSystems (Polaris Group)	July 2024 – Present Chennai, India
Internal Portal Development: Designed and developed a full-stack internal web portal for stakeholders using .NET Core 8 and Angular. - Converted legacy ASPX web forms (Employee Creation, Payroll, and Absence modules) into a modern responsive Angular UI with .NET backend. - Developed and integrated .NET Core 8 APIs for attendance integration with HRMS systems for multiple clients. Agile Bug Management: Tracked, prioritized, and resolved critical production issues using Jira. - Implemented Windows services to collect HRMS metrics from 350+ databases (25 servers), improving data accessibility by 40%. - Built CI/CD pipelines using Jenkins and batch scripts, reducing deployment time by 50% and manual efforts by 80%. - Developed Grafana dashboards for HRMS metrics and IIS log monitoring using Alloy and Loki.	
Product Intern Adrenalin eSystems (Polaris Group)	Feb 2024 – July 2024 Chennai, India
Developed automated E2E tests using Cypress for HRMS forms, significantly reducing manual testing time.	

PROJECTS

- Autonomous Surface Water Vehicle - RoboBoat:** Team Member. Tech: YOLOv4, Python. [\[GitHub\]](#)
- Crack Detection Using Tello Drone:** Team Leader. Tech: HaarCascade, Python. [\[GitHub\]](#)
- Life Guard Gloves by IoT Technology:** Team Leader. Tech: IoT, Embedded C, Sensors. [\[GitHub\]](#)

EDUCATION

Bannari Amman Institute of Technology Bachelor of Computer Science & Engineering	Sathyamangalam 2020 - 2024, CGPA: 8.81
--	--

ACHIEVEMENTS

- Fast Starter Award:** Recognized by Adrenalin eSystems for rapid onboarding and immediate project impact.
- ROBOBOAT 2022:** International event by RoboNation, USA – Received **\$300** award.
- Electronic Wings:** Early bird prize for “Life Guard Gloves by IoT”.
- IdEEEas 2K21:** 2nd place for “Survive For Help”.

CERTIFICATIONS

- Azure Developer Associate (AZ-204):** Microsoft Azure, August 2025
- Azure Fundamentals (AZ-900):** Microsoft Azure, December 2024
- AWS Machine Learning:** Coursera, May 2021
